**A fascinating account of nineteenth-century America sketched with Charles Dickens's characteristic wit and charm**

When Charles Dickens set out for America in 1842 he was the most famous man of his day to travel there - curious about the revolutionary new civilization that had captured the English imagination. His frank and often humorous descriptions cover everything from his comically wretched sea voyage to his sheer astonishment at the magnificence of the Niagara Falls, while he also visited hospitals, prisons and law courts and found them exemplary. But Dickens's opinion of America as a land ruled by money, built on slavery, with a corrupt press and unsavoury manners, provoked a hostile reaction on both sides of the Atlantic. *American Notes* is an illuminating account of a great writer's revelatory encounter with the New World. In her introduction, Patricia Ingham examines the response the book received when it was published, and compares it with similar travel writings of the period and with Dickens's fiction, in particular *Martin Chuzzlewit*. This edition includes an updated chronology, appendices and notes.
