## Nationalisms and Identities among Indigenous Peoples: Case Studies from North America (Nationalisms across the Globe)

This book investigates nationalisms and the emergence of national identities among the Indigenous peoples across North America. It examines the many difficulties which the Native communities have had to face in order to assert themselves as nations, as well as looking at the ambiguity of the term 'nation' within First Nations-government relations. The volume gives a broad perspective on the historical development of Native American nationalism and also explores a variety of political, educational, sociological, cultural and even literary viewpoints. The experiences of the Indigenous peoples are compared with the experiences of other Aboriginal groups across the globe, in order to enrich our understanding of global indigenous nationalisms. The contributors to this volume represent the perspectives of a variety of different First Nations and a wide range of disciplinary fields, from history, anthropology and political science to communications, law, linguistics and literary studies.
