Sociodrama is a flexible, creative, spontaneous way of working with groups, both large and small, to explore the systems we live in and which impact upon us. Originally part of J.L. Moreno's teaching, sociodrama is used across the world in endeavours such as: conflict management, school and higher level teaching, team building, cross-cultural exploration, problem-solving, change management, role training, community and organisational development, consultancy, story-telling, understanding the news, future planning, political change and much more. This book brings together examples of the work of sociodramatists from around the world, together with a wide-ranging collection of views on the current debate 'What is Sociodrama?'
