## **China / On China (Spanish Edition)** Henry Kissinger

Cualquier intento de comprender el futuro papel de China en el mundo comienza con el reconocimiento de su historia: ningún otro país puede reivindicar una relación tan poderosa con su pasado y sus principios tradicionales, y son muy pocas las sociedades que han alcanzado una dimensión y una sofisticación comparables. Henry Kissinger fue el gran artífice de la apertura de China al mundo con su visita en 1971 como secretario de Estado, y la preparación de la que al año siguiente llevaría a cabo el presidente Nixon. Desde entonces, la relevancia de China en el mundo no ha dejado de crecer. Kissinger ha ayudado a configurar las relaciones de China con Occidente, y ha escrito por fin la historia de un país que conoce íntimamente. A partir de documentos históricos y de las conversaciones mantenidas con los líderes chinos durante los últimos cuarenta años, examina el modo en que China ha abordado la diplomacia, la estrategia y la negociación a lo largo de su historia, y reflexiona sobre sus consecuencias en el balance global del poder en el siglo XXI.
