#### **Michael Dennison:**

People live in this new day time of lifestyle always try to and must have the free time or they will get lots of stress from both daily life and work. So , when we ask do people have extra time, we will say absolutely yes. People is human not really a robot. Then we request again, what kind of activity do you have when the spare time coming to a person of course your answer will probably unlimited right. Then ever try this one, reading textbooks. It can be your alternative in spending your spare time, the book you have read will be Physics I For Dummies 2nd (second) Edition by Holzner, Steven [2011].

#### **Sena Meyer:**

As a university student exactly feel bored to reading. If their teacher expected them to go to the library as well as to make summary for some reserve, they are complained. Just very little students that has reading's internal or real their interest. They just do what the trainer want, like asked to go to the library. They go to presently there but nothing reading really. Any students feel that reading through is not important, boring along with can't see colorful photos on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this time, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. So , this Physics I For Dummies 2nd (second) Edition by Holzner, Steven [2011] can make you truly feel more interested to read.

#### **Kyle Smallwood:**

Reading a book make you to get more knowledge from that. You can take knowledge and information coming from a book. Book is composed or printed or created from each source this filled update of news. With this modern era like currently, many ways to get information are available for you.
