The Environmental Case; Translating Values Into Policy

The Environmental Case; Translating Values Into Policy

Through its 15 carefully constructed cases, the book gives readers a first-hand look at some of the most interesting landmark and illuminating new controversies in U.S. environmental policy making. In her new section "New Issues, New Politics," Layzer adds two brand new cases: The Deepwater Horizon Disaster: The High Cost of Offshore Oil; and Fracking Wars: Local and State Responses to Unconventional Shale Gas Development. Layzer provides maps, tables, figures, questions to consider, recommended readings, and useful websites to help students think critically about environmental policy and to facilitate further research.
