Apollonius of Tyana G.R.S. Mead

'TO the student of the origins of Christianity there is naturally no period of Western history of greater interest and importance than the first century of our era; and yet how little comparatively is known about it of a really definite and reliable nature. If it be a subject of lasting regret that no non-Christian writer of the first century had sufficient intuition of the future to record even a line of information concerning the birth and growth of what was to be the religion of the Western world, equally disappointing is it to find so little definite information of the general social and religious conditions of the time.' Mead examines all the available evidence about the life of Apollonius in this remarkable study. Pukka scholarship and meticulous research provide the reader with a fascinating look at the real Apollonius and his possible connections with Christianity. www.arepo.biz
