Critical Civic Literacy: A Reader

Critical Civic Literacy: A Reader

This book has received the AESA (American Educational Studies Association) Critics Choice Award 2013.

Do we live in a democracy? Have we ever practiced democratic education? Will our children and grandchildren inherit a sane or sick society and political order? Those are some of the profound questions that this book tackles, within a broad and evocative conversation on civic literacy in America. Amid calls for academic standardization and high-stakes testing, civic education, once a cornerstone of public schools, has been relegated to a tertiary space. The eloquent voices in this text articulate critical perspectives on citizenship education because they realize the future of our commonwealth may well be at stake.

This important and timely book is a must-read for those interested in civics, social studies, social education, social foundations of education, and educational policy studies. Yet it will also appeal more generally to all educators and education professionals, policymakers, and public officials: it is written for all those who want to revive more humane possibilities for a polity in peril.
