The Rejection of Pascal's Wager: A Skeptic's Guide to the Bible and the Historical Jesus Paul Tobin

Armed with the results of critical historical research and a mind free from the shackles of dogma, Paul Tobin dissects the Bible and the historical Jesus in a way only a sceptic can. Tobin shows the bible, with its numerous contradictions, historical errors and scientific inaccuracies, cannot be considered inerrant. He guides us through the intricacies of modern archaeology and comparative mythology, showing us that the much told stories in the Bible - Adam and Eve, Noah and Moses - are myths, invented by the ancient Hebrews under the influence of Babylonian beliefs. He demonstrates that the gospels, far from being eye-witness accounts, were written by authors unknown to us and were composed many decades after Jesus' death. He reveals that the stories regarding Jesus in the gospels are a combination of historical memory, legendary development and mythical fabrication. With the field of biblical scholarship increasingly packed with evangelicals - where the results of "research" are always in line with traditional church teachings - this book fills an important gap in the literature on Christianity and the Bible.
