Joanne Kaminski, the author, and Renee Love, the cover artist, both struggled with reading while growing up. You will find out how Joanne struggled and how her mom helped her by simply reading with her. Also, reading in a monotone manner may get in the way of your child's enjoyment of what she is reading, as well as her understanding. You will learn how to get your child to figure out when her voice should go up and down and how to stop appropriately at punctuation. The overall purpose of reading is to understand what you are reading. During this 31 day challenge you will learn how to help your child become metacognitive. That means to have her think about her own thinking. She will learn how to ask effective questions to aid in overall comprehension and specifically how to connect with the text. At the end of the book you will get the chance to review how this process went for you and your child. You will be able to check the areas that are still a concern for her and come up with a plan for the next book that you read together. Don't rely on just the schools when it comes to helping your child with reading. Class sizes are getting bigger and less attention is being given to kids who struggle. By utilizing the techniques that you will learn in this book you can be proactive about your child's education and get her onto the path of educational success. No longer do parents have to rely solely on experts to make sure their child is reading on grade level or above. You can have access to all of the tools that you need. With the hardcopy book you will be able to take notes about the process. With the e-book version you will need a notebook to track the progress that is being made. It is pivotal to take these notes so that you can properly assess if the process is working. There will be days where this is not easy. There will be days where it is not convenient to read with your child, but if you stick with the process you will be pleased the results. You have more power than you think available at your fingertips. Whether your child is struggling just a little bit or your child has been diagnosed with dyslexia, your child will benefit from this process.
