The Chemistry Equations and Answers Study Brief is intended as a quick reference for students of chemistry and lifelong learners interested in advanced science. This Study Brief consolidates useful information for problem solvers, including units, constants, formulas and common conversion factors. Explanations of key concepts, definitions of key terms, and brief reviews of related principles and laws provide fundamental context for the many sample problems and solutions included for handy reference. Information, facts, equations and answers are presented in a concise and easy-to-follow format. Specific sections cover atoms, molecules, gases, stoichiometry, thermochemistry, chemical kinetics, chemical equilibrium, acid-base equilibrium, electrochemistry, physical chemistry and nuclear chemistry.
