Laboratory Manual by Martin to accompany Hole's Essentials of Human Anatomy and Physiology

Terry R. Martin

This full-color manual is designed for students with minimal backgrounds in science who are pursuing careers in allied health fields. Designed to support the eighth edition of *Hole's Essentials of Human A&P* by Shier, Butler, and Lewis, this manual contains 47 laboratory exercises and reports, which are integrated closely to the textbook. Exercises are planned to illustrate and review the anatomical and physiological facts and principles presented in the text and to help students investigate some of these ideas in greater detail.
