*Andrew Wood*

**Fire Phone: Simple Instruction Manual on How to Use Fire Phone. Get Hooked on Amazon's First Smartphone (Fire phone books, Amazon fire phone, fire phone guide)** Andrew Wood

**This manual is intended to be an in-depth user guide that documents many of the fantastic features offered by the Amazon Fire Phone.** Like many of the “smart thingies” available today, the Fire phone has an innumerable amount of features, way too many to cram into one book. So instead of writing a textbook on the subject, we’ve decided to take a more practical approach. Here we’ve rigorously assembled the ideal instruction manual that will allow anyone who reads it to fully understand how to operate his or her device.

Our book can more or less be used as a technical crutch. There are certain features that every user who’d like to get the most out of their device should know about. In this guide we’ve made every attempt possible to cover these attributes in such a way that you can walk away feeling like you truly have learned something.

## **By purchasing this guide you will develop a solid understanding of::**

- What the FireOS is
- How to navigate the user interface using gestures
- Overview of the hardware specs
- How to successfully complete the initial setup
- Preparing Wi-Fi
- How to use the Amazon App Store
- Making calls and send text messages
- And much more
