Is nothing everything? As strange as that question looks at first sight, it will definitely make sense after reading NOTHING MATTERS. Provocative and accessible, free of jargon, NOTHING MATTERS shows that there is more to nothing than meets the eye. History, the arts, philosophy, politics, religion, cosmology - all are touched by nothing. Who, for example, could have believed that nothing held back progress for 600 years, all because of mistaken translation, or that nothing is a way to tackle (and answer) the perennial question 'what is art?'
