The Bridge: The Building of the Verrazano-Narrows Bridge

Gay Talese

The Bridge: The Building of the Verrazano-Narrows Bridge Gay Talese

Toward the end of 1964, the Verrazano Narrows Bridge-linking the New York City boroughs of Brooklyn and Staten Island-was completed. Fifty years later, it remains an engineering marvel. At 13,700 feet (more than two and a half miles), it is still the longest suspension bridge in the United States and the sixth longest in the world.

Gay Talese, then early in his career at the *New York Times*, closely followed the construction, and soon after the opening of this marvel of human ingenuity and engineering, he chronicled the human drama of its completion-from the construction workers high on the beams to the backroom dealing that displaced whole neighborhoods to make way for the bridge. Now in a new, beautifully packaged edition featuring dozens of breathtaking photos and architectural drawings, *The Bridge* remains both a riveting narrative of politics and courage and a demonstration of Talese's consummate skills as a reporter and storyteller. His memorable narrative will help celebrate the bridge's fiftieth anniversary and captivate a new generation of readers.
