A Preliminary Design for a Universal Patient Medical Record: Re-engineering Health Care

Michael R. McGuire

A Preliminary Design for a Universal Patient Medical Record: Re-engineering Health Care Michael R. McGuire

Major goals of health care in the 21st century are to make health care more efficient and less costly. These goals can be accomplished by implementation of evidence-based care; greater coordination of patient care; implementation of preventive care and wellness measures; and the evaluation of outcomes of care to identify improved ways to provide care. A universal patient medical record can help achieve these goals of more efficient and less costly health care.
