ABOUT THE BOOK

I first heard of Partners in Health, the organization founded by Dr. Paul Farmer, after the catastrophic earthquake in Haiti in January, 2010. I was impressed by this organization and its commitment to the long-term welfare of the people of Haiti, and I sent in an online donation. That small gesture led me to Tracy Kidder's, *Mountains Beyond Mountains*, a nonfiction book focusing on the life and mission of Farmer.

The book is a gripping story of a doctor who has changed the face of global medicine and public health; particularly in impoverished countries like Haiti. Kidder tells Farmer's life story using interviews, observations, and extensive first-hand.

EXCERPT FROM THE BOOK

Mountains Beyond Mountains is a biography of Paul Farmer, as well as a narrative about the work that Farmer has done in the field of global medicine and poverty. To write the book, Tracy Kidder spent extensive time with Farmer and his colleagues, friends, and family members, conducting interviews, observing, and even participating in the action.

The book was published in 2003 to much critical acclaim. In *USA Today* Nicolas Thomas remarks, *Mountains Beyond Mountains* is an astonishing book that will leave you questioning your own life and political views. It's the perfect testament to a man who continues to reshape medicine and who has become, undoubtedly, an uncommon savior to a country that desperately needed one. A review in the *San Jose Mercury News* said, with gripping descriptions of the plight of the people Farmer treats, Kidder makes us see the urgency of Farmer's mission.
