## **Haschek and Rousseaux's Handbook of Toxicologic Pathology, Third Edition**

*Haschek and Rousseaux's Handbook of Toxicologic Pathology* is a key reference on the integration of structure and functional changes in tissues associated with the response to pharmaceuticals, chemicals and biologics. The 3e has been expanded by a full volume, and covers aspects of safety assessment not discussed in the 2e. Completely revised with many new chapters, it remains the most authoritative reference on toxicologic pathology for scientists and researchers studying and making decisions on drugs, biologics, medical devices and other chemicals, including agrochemicals and environmental contaminants. New topics include safety assessment, the drug life cycle, risk assessment, communication and management, carcinogenicity assessment, pharmacology and pharmacokinetics, biomarkers in toxicologic pathology, quality assurance, peer review, agrochemicals, nanotechnology, food and toxicologic pathology, the environment and toxicologic pathology and more.

- Provides new chapters and in-depth discussion of timely topics in the area of toxicologic pathology and broadens the scope of the audience to include toxicologists and pathologists working in a variety of settings
- Offers high-quality and trusted content in a multi-contributed work written by leading international authorities in all areas of toxicologic pathology
- Features hundreds of full color images in both the print and electronic versions of the book to highlight difficult concepts with clear illustrations
