Andrei Marmor

Philosophy of Law (Princeton Foundations of Contemporary Philosophy) Andrei Marmor

In *Philosophy of Law*, Andrei Marmor provides a comprehensive analysis of contemporary debates about the fundamental nature of law--an issue that has been at the heart of legal philosophy for centuries. What the law is seems to be a matter of fact, but this fact has normative significance: it tells people what they ought to do. Marmor argues that the myriad questions raised by the factual and normative features of law actually depend on the possibility of reduction--whether the legal domain can be explained in terms of something else, more foundational in nature.

In addition to exploring the major issues in contemporary legal thought, *Philosophy of Law* provides a critical analysis of the people and ideas that have dominated the field in past centuries. It will be essential reading for anyone curious about the nature of law.
