Abri Brancken

Altering God's Design Abri Brancken

Altering God's Design by Dr. Abri Brancken (Ph.D) addresses the importance of upholding Biblical morals and ethics relating to the alteration and modification of plant, animal and human life on planet earth through the use of Grin Technologies. Special attention is given to the ethics of creating "new species" of life by blending human and animal cells through genetic engineering. This book is an eye opener to those who are unaware of the fact that the very existence of humanity is under threat due to dangerous alterations that are being made to the human genetic structure in laboratories around the world. At this very moment in time a number of the Grin Technologies are being used with the purpose to 'redesign' ourselves as humans into a new version, Humans 2.0. The truth is that we are rapidly progressing towards a "New Era" in the course of human history, one that might not be as perfect as we would want it to be.
