The three-volume set LNCS 6675, 6676 and 6677 constitutes the refereed proceedings of the 8th International Symposium on Neural Networks, ISNN 2011, held in Guilin, China, in May/June 2011. The total of 215 papers presented in all three volumes were carefully reviewed and selected from 651 submissions. The contributions are structured in topical sections on computational neuroscience and cognitive science; neurodynamics and complex systems; stability and convergence analysis; neural network models; supervised learning and unsupervised learning; kernel methods and support vector machines; mixture models and clustering; visual perception and pattern recognition; motion, tracking and object recognition; natural scene analysis and speech recognition; neuromorphic hardware, fuzzy neural networks and robotics; multi-agent systems and adaptive dynamic programming; reinforcement learning and decision making; action and motor control; adaptive and hybrid intelligent systems; neuroinformatics and bioinformatics; information retrieval; data mining and knowledge discovery; and natural language processing.

**From reader reviews:**

**Irene Holmes:**

Information is provisions for people to get better life, information presently can get by anyone at everywhere. The information can be a expertise or any news even restricted. What people must be consider whenever those information which is from the former life are challenging to be find than now could be taking seriously which one would work to believe or which one the resource are convinced. If you find the unstable resource then you obtain it as your main information it will have huge disadvantage for you. All those possibilities will not happen throughout you if you take Advances in Neural Networks -- ISSN 2011: 8th International Symposium on Neural Networks, ISSN 2011, Guilin, China, May 29--June 1, 2011, ... Computer Science and General Issues) as your daily resource information.

**Andy Breaux:**

Reading a book can be one of a lot of activity that everyone in the world loves. Do you like reading book thus. There are a lot of reasons why people fantastic. First reading a reserve will give you a lot of new facts. When you read a e-book you will get new information because book is one of several ways to share the information or even their idea. Second, reading through a book will make you more imaginative. When you reading through a book especially tale fantasy book the author will bring you to imagine the story how the people do it anything. Third, it is possible to share your knowledge to other people. When you read this Advances in Neural Networks -- ISSN 2011: 8th International Symposium on Neural Networks, ISSN 2011, Guilin, China, May 29--June 1, 2011, ... Computer Science and General Issues), you may tells your family, friends as well as soon about yours guide. Your knowledge can inspire average, make them reading a guide.

**Paul Ring:**

Spent a free time for you to be fun activity to complete! A lot of people spent their down time with their family, or their very own friends. Usually they accomplishing activity like watching television, about to beach, or picnic inside park. They actually doing same thing every week. Do you feel it? Do you want to something different to fill your free time/ holiday? Might be reading a book might be option to fill your totally free time/ holiday. The first thing you ask may be what kinds of book that you should read. If you want to attempt look for book, may be the reserve untitled Advances in Neural Networks -- ISSN 2011: 8th International Symposium on Neural Networks, ISSN 2011, Guilin, China, May 29--June 1, 2011, ... Computer Science and General Issues) can be very good book to read. May be it could be best activity to you.

**James Harris:**

Do you have something that that suits you such as book? The guide lovers usually prefer to choose book like comic, small story and the biggest an example may be novel. Now, why not hoping Advances in Neural

Networks -- ISSN 2011: 8th International Symposium on Neural Networks, ISSN 2011, Guilin, China, May 29--June 1, 2011, ... Computer Science and General Issues) that give your satisfaction preference will be satisfied through reading this book. Reading practice all over the world can be said as the means for people to know world far better than how they react toward the world. It can't be claimed constantly that reading practice only for the geeky man or woman but for all of you who wants to end up being success person. So , for all of you who want to start reading as your good habit, you are able to pick Advances in Neural Networks -- ISSN 2011: 8th International Symposium on Neural Networks, ISSN 2011, Guilin, China, May 29--June 1, 2011, ... Computer Science and General Issues) become your starter.
